

EC2-Instance

Ec2-Life Cycle:

- On-demand: No commitments (hourly billing)
- Reserved Instances: 1 or 3 year contract
- Spot instance: Making revenue out of free hardware, we get the ec2 instance at lowest possible cost, but when the cost increases the ec2 instance will be evicted from you
- EC2 virtual servers can run

- linux based virtual machines
 - windows based virtual machines
 - mac based virtual machines
-
- AWS segregates instances by
 - purpose:
 - General Purpose
 - Compute Optimized
 - Memory Optimized
 - Accelerated Computing
 - Storage Optimized
 - HPC
 - Family: Each Family represents the hardware configurations. Family will have generations of hardware evolution
 - Size: This speaks about RAM, CPU, network speed
